Before the first use:

Select the earcaps that fit your ear, put them on the earbuds, and put them back into the charging case. It's recommended that you charge the earbuds and charging case before the first use, or if you haven't used it for a long time.

Power on/off:

The earphones will be automatically turned off when you place them in the charging box. When you take them out they will turn on. When out of the charging case, long press the earphone for five seconds to turn them off, then if you want to turn them on, long press for five seconds.

Pairing:

Take out the earbuds from the charging case. They will turn on and pair with each other automatically. To pair them with your phone, turn on the Bluetooth on your device and search for available devices, and tap on the RD01-TWS/RD01-V5.0/MD02 to connect. When using the earbuds again, they will automatically pair with the latest used device after power on.
